

Search by Product

Search by Merchant

The diagram illustrates a user interface for searching products, specifically furniture, across multiple merchants. The interface consists of a header, a search bar, and a main content area displaying product cards.

Header: Both versions feature a dark header bar with the DeShop logo, a search icon, and a shopping cart icon. The right version includes a user profile icon.

Search Bar: Both versions have a search input field labeled "Search".

Navigation: Both versions include a navigation bar with links for "Home", "About", "Library", "Projects", and "Profile". The "Library" and "Projects" sections have dropdown menus for "Model", "Floor plan", "Project Showcase", "Upload Project", and "My Profile". The "Profile" section has a dropdown menu for "Settings".

Main Content: Both versions show a breadcrumb path "Model Library > Products > Furniture". Below this, there are two filter dropdowns: "Category: Furniture" and "Product: All".

Product Cards: The main content area displays a grid of product cards. Each card shows a thumbnail, the merchant name ("DeShop"), the product name ("Sofa"), the price ("\$200.0"), and the number of likes ("1,000 Likes").

Left Version: This version shows a 5x3 grid of 15 product cards. The cards are arranged in three rows of five. The first row has five cards, the second row has four cards, and the third row has six cards.

Right Version: This version shows a 5x5 grid of 25 product cards. The cards are arranged in five rows of five. The first row has five cards, the second row has five cards, the third row has five cards, the fourth row has five cards, and the fifth row has five cards.

Text Labels: The right version includes a text label "20 products found" located above the product grid.
