

Upload Project

The diagram illustrates the 'Upload Project' process flow across three main stages: Overview, Project Details, and Floor & Room.

Overview Stage: The first stage consists of three circular steps: Overview, Floor & Room, and Confirm. A green box highlights the 'Next' button at the bottom, which leads to the next stage. A green arrow points from the 'Floor & Room' step to the 'Floor & Room' section in the Project Details stage.

Project Details Stage: This stage includes fields for Title, Unit Type, Description, VR Link, and Upload Unit's Image. It also features a 'Area' section and a 'Tags' section. A green box encloses the entire Project Details stage, and a green arrow points from its 'Floor & Room' step to the 'Floor & Room' section in the Floor & Room stage.

Floor & Room Stage: This stage is divided into three sections: Floor 1, Floor 2, and Floor 3. Each floor section contains an 'Area' field, a 'Rooms' field, and an 'Upload Photos of Floor 1' area. The 'Rooms' field for each floor shows uploaded images (e.g., Image1.jpeg, Image2.jpeg). A green arrow points from the 'Floor & Room' step in the Project Details stage to the 'Floor & Room' section in the Floor & Room stage.
